In partnership with Trying Together, early childhood educators will receive PQAS credits for their attendance.

Explore early learning activities that enhance this year's Pennsylvania's One Book, Every Young Child selection, *My Cousin Momo* by Zachariah O'Hora.

- We'll provide a selection of books, songs and rhymes for use in your own Momo-inspired **circle time**.
- You'll learn fun strategies that support the **early literacy** development of young children with simple interactions.
- You'll take away ideas for activities that develop preschoolers' social and emotional skills.
- You'll explore activities that will foster **family engagement** and bring guardians and children of all ages together to learn and grow.

Each attendee will receive a free copy of *My Cousin Momo*.

One Book, Every Young Child is a statewide initiative that promotes the importance of early literacy development for children ages three to six. Each April, Pennsylvania celebrates a book whose story and illustrations encourage children's imaginations and love of reading to build a community of readers.

These workshops are provided by Carnegie Library of Pittsburgh in partnership with Trying Together.
