

## 63% OF FAMILIES WITH KIDS HAVE EITHER TWO WORKING PARENTS OR A SINGLE PARENT

THE MAJORITY OF FAMILIES DO NOT HAVE A STAY-AT-HOME PARENT TO PROVIDE CARE

# SHARE YOUR STORY

Help make it easier for families in your community to find AND keep access to affordable, high-quality child care and early education.

Your voice makes a difference in the safety, quality, and cost of child care. Family stories about experiences with child care and early learning programs help policymakers understand your concerns. It urges them to make changes to address the issues households face every day in Pennsylvania. Tell us your story, and grow the success that comes when our lawmakers, businesses, and communities work together to support working families like yours.
