

Using Ages and Stages Questionnaires® as a Screening Tool

Are you interested in learning how to use Ages and Stages Questionnaires®, including Ages and Stages Questionnaires: Social-Emotional, as a screening tool for children ages three months to five years old?

Join Trying Together for a three-hour professional growth session that provides information on how to administer, score, and share the results of the screener with families. The session will include resources for making referrals to additional services.

This course will be instructed by Carlow University's Coordinator of Undergraduate Education Programs, Pamela Zimmerman.
