

Communities of Practice

November 2020

Continuous Quality Improvement Plan

Early Learning Resource Center (ELRC) Region 5 offers Communities of Practice (COP) for early learning professionals to discuss topics of interest, current trends in the field, and offer insight and inspiration to one another. In November, the COP virtual sessions will discuss how to create Continuous Quality Improvement (CQI) plans using approved program observation instruments, creating goals from the results of those instruments, identifying the steps it will take to reach the goals, and who is responsible for ensuring the goal is implemented. Participants will learn about the importance of including staffs' professional development plans and how to use the CQI throughout the whole year.

Saturday, 11/14 | Continuous Quality Improvement Plan

10 a.m. Zoom session:
