

Communities of Practice

September 2020

School-Age Care Updates

Early Learning Resource Center (ELRC) Region 5 hosts Communities of Practice (COP) for early learning professionals to discuss topics of interest, current trends in the field, and to offer insight and inspiration to one another. In September, the COP virtual sessions will discuss the most current school-age care updates, information, trends, resources, and professional development opportunities. Participants will connect with out-of-school-time partners and professionals, and they will receive support as new or existing school-age care programs. The session will also focus on supporting virtual learning, daily schedules, and keeping the children engaged.

Saturday, 09/12 | School-Age Care Updates

10 a.m. Zoom session:
