

Grandparent Council

Join early learning nonprofit Trying Together and become a member of the Grandparent Council to help ensure all young children are receiving high-quality care and education.

The Council will host monthly meetings in various locations (with a conference call option) where grandparents can:

- learn more about the importance of an early childhood education
- receive guidance and support in identifying high-quality early learning environments
- learn how to advocate for the well-being of all children in our communities
