

## Stay and Play!

Many providers face the challenge of juggling virtual learning for school-age children while keeping younger children engaged.

To help support this work, Trying Together and the Playful Pittsburgh Collaborative have reimaged the Come Play! experience. As part of the eight-week "Stay and Play!" series, we invite early learning programs to participate in a weekly virtual playdate. Join in music, movement, wellness, science, and creative expression activities that make play a joyful part of the day.
