

Three Easy Steps to Update Your Program Profile

1 View and confirm that your public profile is complete at providers.alleghenychildcare.org.
New profile features are being added all the time. Programs with complete information perform better than those without!

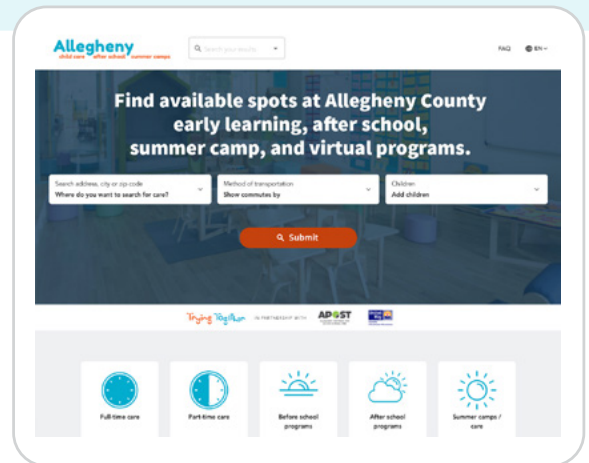

2 Update your profile when you have openings.
This is a vital step to fill your open spots quickly, and to help families find you!

3 Add photos and a video tour of your facility.
This is an easy step that makes your program stand out!
