*Eligible children live in families earning up to 300% of federal poverty level. Children with access includes those enrolled in high-quality providers using public funds to support their pre-k education.

**High-quality, publicly funded pre-k programs are offered through Head Start, Pre-K Counts, Philadelphia pre-k (PHLpreK), school district pre-k programs, and through child care provided in Keystone STAR 3-4 centers and group child care homes participating in the Child Care Works program for preschool-age children. Eligible providers include Head Start, Keystone STARS 3 and 4 center and group child care, PDE-licensed nursery schools and school districts.

The Pre-K for PA vision is to ensure that all children can enter school ready to succeed by making high-quality pre-kindergarten accessible to every three- and four-year-old in Pennsylvania.

HIGH-QUALITY, PUBLICLY FUNDED PRE-K

BENEFITS OF HIGH-QUALITY PRE-K

reduced grade repetition

increased graduation rates

reduced special ed placements

taxpayer dollars preserved

decreased crime and incarceration

stronger economy

Pre-K Counts teachers have their degree and teaching certification - just the same as a district teacher would. Our Pre-K Counts teachers could make at least \$75K (for the school year/school day hours only) and on top of that, be entitled to generous health and PTO benefits. The state must invest in pre-k to get closer to pay parity.

Assistant Director, Once Upon a Time Early Learning Center,
Pre-K for PA and Start Strong PA Provider Advisory Board member

As part of an enacted 2024-25 budget, the Pre-K for PA campaign asks the General Assembly to:

- Support an investment of \$30 million in Pre-K Counts to increase the per child rate to help address workforce challenges and inflationary pressures in the sector. For the Head Start Supplemental Assistance Program, the proposed investment of \$2.7 million to increase the per child rate should be examined so that it has parity to the Pre-K Counts rate increase. To achieve this, the needed investment should be \$8.8 million in the Head Start Supplemental Assistance line.
- Ensure this is the first step, as additional investments will be needed in future years to further mitigate teacher shortages in this competitive economy and provide greater access to this once-in-a-lifetime opportunity for our preschool learners.
