Start Strong PA believes that because every child deserves an equal opportunity to a quality educational foundation that will prepare them to grow, learn, and succeed, we are calling on Pennsylvania to focus on the most important years of a child's development; the first three years of life.

As part of an enacted 2024-25 budget, the Start Strong PA campaign asks the General Assembly to:

- Support the Administration's proposal to increase subsidy rates to the 75th percentile of the current price families pay for child care services. This increase will help alleviate some of the rising facility, food, utility and supply costs for providers participating in Child Care Works.
- Invest \$284 million in new and recurring state funding to implement a child care teacher recruitment and retention initiative. This will help alleviate the historic staffing crisis that is causing classrooms and entire programs to close and leave working families without access to child care. The funding would provide monthly payments to providers maintaining a subsidy agreement with the commonwealth and would be restricted for initiatives which would help retain and recruit staff such as monthly wage increases, hiring bonuses, benefit packages, or retention bonuses for staff staying for a certain length of time or for staff achieving certain credentials or degrees.
